

PIPE JOINT LUBE LUBRICANT FOR GASKETED PIPE

PRODUCT DESCRIPTION: Specco Pipe Joint Lube is a semi-aqueous, vegetable origin soap designed to lubricate rubber or "O" rings gaskets on pipes of all kinds. Without the use of this "come along helper," the "O" ring may twist and slip out of the coupling groove, resulting in excessive pressure on the pipe assembly. This force on the bell end of the pipe may lead to leakage at the joint or eventual cracking of the bell itself.
